

Joel's Story

"As much as we have taught him about working in our store, Joel has taught the rest of us a lesson that is just as important – *how to find happiness in our daily work.*"

Joel
Backroom Assistant

We did not have any experience working with Cosmo job seekers before, but after Joel spent some time at the store we realized this would be a rewarding experience for both of us. Rewarding, in seeing him grow as a person and an employee, developing new skills and confidence in his abilities, and learning how to best work with his strengths – his caring personality, attention to detail and big, friendly smile.
